## **RESERVES POLICY**

### **Reserves Available to the General Fund**

#### **Introduction**

The County of Orange Reserves Policy inventoried the existing reserves available to the General Fund and guides the creation, maintenance and use of reserves. It provides flexibility to the County in dealing with future planned capital expense needs, unanticipated or cyclical economic conditions, emergencies, catastrophes, temporary cash flow shortages, unexpected large one-time expenses, opportunities to use funds to produce future ongoing savings and some level of protection against statutory changes to County revenues.

Examples of events demonstrating the need for reserves include the Governor's original FY 04-05 proposed budget that would have caused an ongoing \$62 million reduction of the County's general purpose revenues. This was subsequently reduced to a reduction of \$27.7 million per year for two years. In addition, the State passed on a share of the Federal child support system penalty (\$4 million per year for two years), deferred reimbursement of mandated cost claims, and FY 03-04 Vehicle License fees were reduced by \$26.5 million; repaid by the State in July 2005.

This policy includes both formal and informal reserves. It includes provisions for reserves as reported on Schedule 3 of the County Budget Book compiled by the Auditor-Controller, appropriated reserve-type funds and reserve-type funds held by the Orange County Employees Retirement System (OCERS). A summary schedule of the reserve balances, additions, uses and target amounts is attached.

#### **Provisions for Reserves**

Provisions for Reserves are formal reserves as reported on Schedule 3 of the Auditor-Controller Budget Book. There is currently a Reserve for Contingencies, a Strategic Priority Reserve-Capital for funding of identified projects, and a Strategic Priority Reserve-Unallocated.

Reserve for Contingencies: This reserve was established through the Strategic Financial Plan process. It is normally modified at the time of adopting the budget (Government Code Section 29085). Changes to reserve amounts at other times require a 4/5 vote of the Board of Supervisors. A 4/5 vote is also required to make such reserves available for appropriation to expend these funds if needed during the fiscal year (Government Code Section 29130). The purpose and use of this reserve is to cover unanticipated and severe economic downturns, major emergencies or catastrophes that cannot be covered with existing appropriations. The target amount for this reserve is 10% of ongoing annual General Purpose Revenues (excludes fund balance available and one-time amounts and transfers), or \$55,750,000. The 10% compares to Government Finance Officers Association (GFOA) guidelines of 5% to 10% and to surrounding counties that use targets from 5% to 15%. The current balance is \$39,000,000, a \$16,750,000 variance from the target. This Strategic Financial Plan recommends an increase to this reserve to meet the target amount.

Strategic Priority Reserve - Capital: This reserve was established through the Strategic Financial Plan process. It is normally modified at the time of adopting the budget. Changes to reserve amounts at other times require a 4/5 vote of the Board of Supervisors. A 4/5 vote is also required to make such reserves available for appropriation to expend these funds if needed during the fiscal year (Government Code Section 29130). The purpose and use of this reserve is for specific projects shown on the attached detail sheet. In some cases, the amounts represent “down payments” on capital improvements that will need to be augmented by other funds. Funds would be withdrawn from this reserve and appropriated in the fiscal year in which the projects are expected to be encumbered or expended. The reserve balance at FY 05-06 year-end was \$20,844,885. The estimated year-end balance after all additions and uses during FY 06-07 is \$36,255,785. During FY 06-07 increases and decreases will be made to reserves related to the upgrade/replacement of CAPS (Countywide Accounting and Personnel System) and ATS (Assessment Tax System). Future Strategic Financial Plans may recommend changes to the projects and/or amounts in this reserve.

Strategic Priority Reserve - Unallocated: This reserve was established through the Strategic Financial Plan process and built up with periodic additions of unanticipated General Fund Balance available at the close of prior fiscal years. It is normally modified at the time of adopting the budget. Changes to reserve amounts at other times require a 4/5 vote of the Board of Supervisors. A 4/5 vote is also required to make such reserves available for appropriation to expend these funds if needed during the fiscal year (Government Code Section 29130). The purpose and use of this reserve is to provide flexibility to the County in dealing with future planned capital expense needs, unanticipated or cyclical economic conditions, emergencies catastrophes, unexpected large one-time expenses and opportunities and some level of protection against statutory changes to County revenues. The reserve balance as of FY 05-06 year-end was \$95,450,263. The estimated year-end balance after all additions and uses during FY 06-07 is \$102,159,215. This Strategic Financial Plan recommends the use of \$60 million in FY 09-10 for down payment on the debt financing of the James A Musick facility. This down payment will help reduce the debt service payment amount. The \$60 million is forecast to be repaid to the reserve account over two fiscal years, 10-11 and 11-12. Future Strategic Financial Plans may recommend changes to this reserve as funds are needed or become available.

### **Appropriated Reserve-type Funds**

These are informal reserve amounts annually appropriated in the budget. There are currently two of these: Vacancy Factor & Miscellaneous Reserve and the Designated Special Revenue Fund.

Vacancy Factor & Miscellaneous Reserve: This appropriation is maintained in the 004 Miscellaneous Fund budget within the County General Fund. It was first established in the FY 99-00 budget when the CEO implemented a salary & wages budget policy based on historical vacancy factors. The purpose and use of this reserve is to provide additional appropriations to a General Fund department should its actual vacancy factor fall below the budgeted vacancy factor for most of the fiscal year and the department has insufficient appropriations to make it to the end of the fiscal year. It may also be used for significant unanticipated emergencies, catastrophes, one-time expenses and opportunities. A 4/5 Board of Supervisors vote would be

required if these funds are transferred outside the General Fund. The current balance is \$5,000,000. If a portion of the reserve is used during any fiscal year the full \$5,000,000 is re-budgeted the following fiscal year. Future Strategic Financial Plans may recommend changes to the current balance as funds are needed or become available.

Designated Special Revenue Fund (15S): This fund was established in FY 96-97 and is now governed through the Strategic Financial Plan process. The purpose and use of this fund is to cover temporary cash flow shortages in other County funds as authorized annually by the Board and to fund strategic priorities identified in the Strategic Financial Plan. These priorities currently include deferred maintenance, projects to remedy Americans with Disabilities Act (ADA) infrastructure deficiencies and partial funding for a new regional animal care facility. The fund balance as of FY 05-06 year-end was \$25,541,906. The estimated year-end balance after all additions and uses during FY 06-07 is \$20,803,870. Future Strategic Financial Plans may recommend changes to these projects and amounts as new priorities are identified and funds are needed or become available.

### **Reserve-type Funds held by OCERS**

Currently, there is a reserve held by the Orange County Employees Retirement System on behalf of the County. This reserve is called the Retirement Investment Account.

Retirement Investment Account: This account was established with the proceeds of the 1994 Pension Obligation Bonds. The purpose and use of this account includes the offset of County retirement expenses and reducing the County's share of the retirement system unfunded liability. The balance of this account as of FY 05-06 year-end was \$159,089,509. A portion of retirement system earnings are credited to this account. The FY 06-07 budget plans for use of \$11,000,000 (a portion of the current year estimated interest earnings) from this account to offset FY 06-07 retirement expenses. Future debt defeasance strategy and Strategic Financial Plans may recommend changes to the use of this account. Use of this account to offset the County's retirement expenses may free up existing or future general fund resources for other purposes.
