Supervisor's Message:

Dear Neighbor,

Another week of progress in Orange County Second District! Today, Orange County held a press conference at [Be Well](#) Anita location in Orange to announce state funding received on two key county projects: Second Be Well OC Campus and the System of Care Data Integration Solution. I greatly appreciate the efforts of Senators [Umburg](#) and Bates, Assemblymember [Petrie-Norris](#) to secure funding for these two critical projects. I have known these legislators for many years and was pleased to see our advocacy efforts pay dividends for our taxpayers. The second Be Well campus will allow more Orange County residents to have access to mental health and wellness services, as well as quality professional substance abuse treatment, while the data integration project will allow for more information sharing between our county agencies to better assess the needs and assist our most vulnerable residents.

Yesterday, my team and I were out in the community safely masked up. We took a hike in Newport Beach at [Buck Gully](#) and learned about all the efforts of the [Irvine Ranch Conservancy](#) to preserve and maintain the area for the wildlife and the community given our recent fire events. My team and I ended the day celebrating and supporting DKF Upcycling Fellows at the Youth In Fashion event at [Hammitt](#) in [South Coast Plaza](#). The nonprofit [Dragon Kim Foundation](#) and handbag brand, [Hammitt](#), partnered together to feature six teenage fashion designers committed to upcycling and environmentalism. The teens are leading environmental-focused fellowship projects sponsored by the foundation. For this event, the teens designed handbags with recycled materials donated by Hammitt.

This week, we also meet with our Second District Elected Officials twice! It was great to engage with our elected officials throughout the district and share ways to partner on tackling homelessness. We discussed project homekey and the OC county departments shared how they can support the cities with these efforts to convert motels, underutilized and dilapidated buildings or other housing needing upgrade to permanent supportive housing.

All in all, it was a week filled with providing needed public information about Covid-19 and learning about our most precious landmarks and resources in the district.

Thank you for reading our weekly newsletter. You can review past issues and board updates on our website. If you want to watch our board meeting on Tuesday, August 24, 2021 you can [watch live here](#). Please reach out to us with ideas, concerns and input. We want to hear from you. And please get vaccinated and continue to wear a mask indoors, in crowded areas or where the risk of COVID-19 may be higher.

Be well,

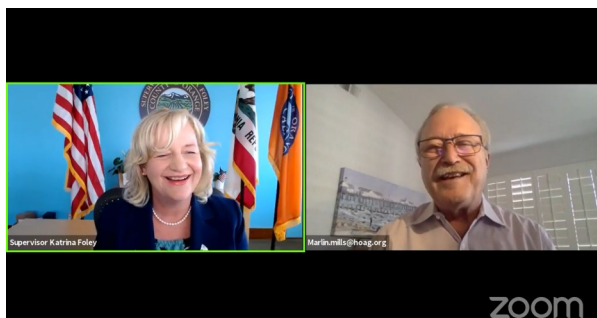

Katrina

"The second Be Well campus will allow more Orange County residents to have access to mental health and wellness services, as well as quality professional substance abuse treatments, while the data integration project will allow for more information sharing between our county agencies to better assess the needs and assist our most vulnerable residents."

"Hello District 2,

Our office continues to work hard towards accomplishing Supervisor Foley's priorities for the Second District. This week the bulk of my attention focused on COVID-19 Relief and Recovery. We hosted vaccine clinics in Newport Beach and Huntington Beach this week, including our newest location at [Coastline College – Newport Beach Campus](#). Additionally, on Saturday, we host a clinic in Oak View in Huntington Beach. One of my favorite parts of my job is getting to see people show up for their vaccines.

Supervisor Foley and I also attended the [Canstruction](#) Homecoming event in support of the [OC Food Bank](#) where we thanked and recognized Fluor Corporation and Crespi for their generous support and participation. We loved seeing Newport Beach local Wing Lam who founded Wahoos in D2. He often gives to the community. Canstruction works to assist the most vulnerable among our population by building art sculptures out of canned food which is then donated afterwards to food banks. It truly warms my heart to see this! Feel free to reach out to me with any events in Newport Beach, Huntington Beach, or Seal Beach at avery.counts@ocgov.com or at (714) 559-8364. Thanks!"

"Hello Everyone,

It's great to be back home after visiting family last week.

This week's theme is "transparency in governance" a top priority for Supervisor Foley for District 2. We strive to provide our citizens with valuable information. I joined Supervisor Foley at our quarterly "Orange County's Second District—Elected Officials Meeting" where we talked about how our office can assist them with providing services and answer questions for our residents.

We are continuing our weekly Saturday COVID-19 clinic at [Orange Coast College](#) (enter off Adams) from 9am—2:30pm. No appointment is necessary prior to arrival. Simply show up, and get vaccinated.

On Tuesday, the Cypress City Council held interviews to fill their council vacancy. Our office looks forward to working with the newest member of the Cypress City once they've been selected.

If you have any questions for me please reach out at (714) 714-3122 or email me at Manuel.Chavez@ocgov.com. "

TRANSPARENCY IN GOVERNANCE

Commissioner Updates

Appointee: Sue Dvorak

Commission, Committee, or Board: Orange County Airport Commission

Date: August 18th, 2021

Update:

The Airport Commission voted unanimously to extend the contract with LAZ Parking California, LLC through September 30, 2022 to ensure shuttle service is provided for employees and passengers from the Main Street parking lot to the main terminal. JWA expects a competitive bid process in the fall of 2021 for a new parking management shuttle contract.

The Commission also voted, unanimously, to recommend the approval of an Air Canada lease from October 1, 2021 – December 31, 2025. Air Canada passengers will travel from JWA to Vancouver on the Boeing 737 Max 8 airplane which utilizes the latest aircraft technology resulting in lower fuel consumption and quieter departures.

This week I also worked with Supervisor Foley and her internal advising team on the Fly Friendly program to encourage use of cleaner fuels and quicker departures.

OCWD Makes History by Operating Orange County's First PFAS Treatment Plant

The Orange County Water District (OCWD) made history in June by bringing the first treatment plant online to remove per- and polyfluoroalkyl substances (PFAS) detected in Orange County groundwater supplies.

PFAS are a group of thousands of manmade chemicals that are used in consumer products such as Teflon pans, stain resistant carpets and fast-food packaging. Due to their prolonged use, PFAS were detected in water sources throughout the United States, including the Orange County Groundwater Basin, which provides 77% of the drinking water for 2.5 million people in north and central Orange County. Despite playing no role in releasing PFAS into the environment, water providers must find ways to remove it from groundwater supplies while continuing to meet all state and federal water quality regulations.

As part of a robust effort to address PFAS, OCWD created a PFAS taskforce, actively working with state officials, local water agencies and community stakeholders to share updates and gain consensus on developing long-term treatment solutions, launched the nation's largest pilot treatment program to test treatment techniques for removing PFAS, and continues to share best practices with the industry. Currently, 11 of OCWD's water providers are undergoing design and/or construction for 35 treatment facilities throughout Orange County.

OCWD remains committed to frequent and transparent communications with its stakeholders while maintaining public trust in local groundwater.

Please visit [OCWD's PFAS webpage](#) for additional information on the District's comprehensive PFAS response.

This week I attended several meetings related to Supervisor Foley's Fly Friendly Initiative. We vetted the first draft with our internal airport advisory team, then met with aviation lawyers to discuss legal incentive options as well as the possibility of a Part 150 study to address more noise and pollution. On Thursday, I attended the Fly Friendly Program Committee to gather their impact. We will finalize the plan over the next few weeks. Thanks for all the involved community members, JWA staff and airport operations for supporting.

A Drizzle of Local Artistry in New John Wayne Airport Art Showcase

(SANTA ANA, CA) – Local Anaheim resident Robert Holton always knew that one day, he would be an artist. His distinctive style uses a “drizzle” technique that breathes vibrant color and movement into pop icons, city seals and business logos. Examples of this talented artist’s work will be on display at John Wayne Airport in a new exhibit showcasing popular Orange County locales and cities. His art will be displayed in the Thomas F. Riley Terminal as part of the JWA Community Focus Space August 19, 2021 through September 16, 2021.

PET OF THE WEEK

Meet this week's Pet of the Week, Jim!

Four-month-old Jim was found as a stray in the city of Anaheim in June. When he arrived at OC Animal Care, Jim appeared underweight, dehydrated, and had several abrasions on his tiny face. Our dedicated medical team went straight to work providing Jim the care he needed to recover from his previous life on the streets. Jim may have never encountered human touch prior to his arrival at the shelter, so our staff and volunteers worked diligently to help bring him out of his shy shell. Fortunately, Jim has made progress while in our care and now enjoys being petted and talked to by our team! Jim will need patient, understanding adopters who will work with him to build confidence and gain trust. With some extra TLC, we are hopeful that he can continue to grow and blossom into the brave little tiger we know he is inside! Does Jim sound like the purrfect fit for you? Please call 714-935-6848 to schedule an adoption appointment or visit the [website](#).
