

Know the 10 Signs Early Detection Matters

Are you or someone you know experiencing memory loss?

Early detection of Alzheimer's disease, Mild Cognitive Impairment, or a related dementia gives you a chance to begin drug therapy, enroll in clinical studies, and plan for the future.

Attend this workshop, and learn:

- The 10 warning signs related to memory loss
- Why early detection is important
- What you can do to help yourself
- The basics about Alzheimer's disease, dementia and Mild Cognitive Impairment
- What other people with memory loss and their family members have to say about diagnosis, treatment and their personal experiences

Date: Thursday, April 19, 2012

Time: 2:30 pm

Location: Easter Seals Adult Services
500 W. Central Avenue, Suite A
Brea, CA 92821

Please call the Alzheimer's Association for more information and to register:
