

# What's YOUR big idea?

(about the future of California's transportation system)

## workshops

The California Department of Transportation (Caltrans) invites your input on the next update of the California Transportation Plan "Moving into the Future..." which will contain the state's transportation policies through 2035. Caltrans will host six public workshops throughout the state to provide an opportunity for you to:

- help create the vision for a future sustainable transportation system that enhances the quality of life for all of California; and
- influence long-range transportation planning goals, policies, and strategies.

### By participating, you become part of the solution to our state's transportation challenges.

The workshops feature informational presentations, small and large group discussions, and electronic polling (so that everyone can instantly see the group's response to questions that are posed).

**JOIN US!** Workshop dates, times and locations are listed at right. Please arrive 15 minutes early to sign in and get refreshments. The workshops will begin promptly.
