

# **Crown Valley Traffic Relief Project**

## **CONSTRUCTION ALERT**

### **Eastbound Lane Opens, Traffic Lights Synchronized**

The roadway widening on the south side of Crown Valley Parkway is now complete and a new lane has been opened east of Bellogente. While the parkway improvements continue on the south side, there are now three lanes of traffic the entire length. Additionally, a traffic signal timing sequence has been implemented to facilitate traffic flow until the automatic detection system can be restored.

Construction continues on the north side of Crown Valley to add another westbound lane. This lane is expected to be completed and open by the end of June. The median and parkway landscaping improvements are expected to be completed by the end of August.

*Every effort will be made to minimize impacts to residents, businesses and motorists throughout this and all phases of construction. Due to unforeseen operational factors or inclement weather, these dates and times may change.*
