Free Health and Social Services for the Homeless

Volunteer M.D.s and O.D.s provide free medical and vision care for homeless

What: The Illumination Foundation is coordinating the second annual Sun Fair Health and Fitness Expo at Saddleback Memorial Medical Center in San Clemente to provide FREE medical care, eye exams and glasses, dental screenings and social services to the underserved, homeless community of San Clemente. **The health fair will be held on Sunday, November 13, and is free and open to the public.**

Why: San Juan Capistrano school district has the third highest number of students living in unstable housing conditions in the county. With the rising costs of housing and health care in the community, thousands more families teeter close to the edge of homelessness in South Orange County.

14 million Americans are visually impaired and of these, more than 11 million have uncorrected visual impairment where they need glasses or contact lenses to improve their vision. The highest rate of visual impairment cases are in the economically disadvantaged population.*

When: Sunday, November 13
9:00 am – 3:00 pm

Where: **Saddleback Memorial Medical Center**
San Clemente Campus Location
654 Camino De Los Mares
San Clemente, CA 92673

Visuals: Hundreds of local, underserved, homeless residents receiving free medical care, comprehensive eye exams and glasses.
