Subject: New Fire Engine Serving Dana Point

Contact: CAPTAIN STEPHEN J. MILLER, (714) 573-6201

The Orange County Fire Authority is pleased to announce that the City of Dana Point has a sparkling new fire engine serving the city. Engine 30, a 2007 E-One Cyclone, began service on September 10, 2007.

Engine 30 is designed to handle almost any kind of emergency incident, including structure fires, high-rise fires and rescues, automobile accidents and paramedic calls.

Engine 30 is a paramedic assessment engine and is staffed with a three person crew—a Captain, Engineer, and Firefighter/Paramedic. It cost \$334,514, has a 500 gallon water tank with a 10 gallon foam tank and its electrical system is the state-of-the-art multiplex system.

New OCFA fire engines undergo periodic preventative maintenance and are designed to last at least 15 years on the frontline and another five years as a relief engine.

###

The Orange County Fire Authority is a joint powers authority that serves more than 1.3 million residents in 22 cities and the unincorporated areas of the county.
