### **NRC TO HOLD PUBLIC MEETING TO DISCUSS SAN ONOFRE NUCLEAR GENERATING STATION ISSUES**

The Nuclear Regulatory Commission will hold a public meeting on Oct. 9 to discuss the status of its oversight of the San Onofre Nuclear Generating Station and respond to questions about current plant issues.

The two-part meeting will be held between 6 and 9:30 p.m. at the St. Regis Monarch Beach Hotel, One Monarch Beach Resort, in Dana Point, Calif. There is a nominal parking fee.

The first part of the meeting will be a facilitated roundtable discussion on topics of significant public interest. The second part of the meeting will be a question and answer session between the NRC and the public on topics related to SONGS and the NRC's regulatory process.

Representatives for the roundtable are being chosen by the NRC in consultation with local interest groups. Members have not been chosen yet.

The NRC is making arrangements to webcast the meeting and will provide additional details at a later date.

“We want to provide members of the public with an opportunity to get their questions answered on a broad range of topics related to San Onofre,” said Region IV Administrator Elmo E. Collins. “We think the roundtable discussion along with an open question and answer session will provide people with a means of doing this.”
