

Interchange Improvement Project

**Interstate 5/State Route 74 Interchange
in the City of San Juan Capistrano**

April 2012

Existing Interchange

PROJECT OBJECTIVES

Reconfiguring the existing I-5/SR-74 interchange would:

- Potentially reduce congestion related accidents
- Improve travel times on the local and regional transportation system
- Be consistent with existing and planned local development
- Facilitate traffic flows and alleviate congestion along SR-74 (Ortega Hwy) and the I-5 freeway on/off ramps

EIR/EA Selected Alternative (Alternative 3)

□ Proposed Schedule

- April 2012 California Transportation Commission (CTC) Funds Allocation
- July 2012 Listing/Advertisement
- September 2012 Award
- Winter 2012/13 Est. Construction Start Date
- Spring 2015 Est. Completion Date

□ Estimated Construction Cost

- Construction Cost (Capital & Construction Eng.):
\$45,400,000
