

San Onofre

Nuclear Generation Station

A Generation

of Generating Electricity

You are invited to a public presentation and discussion about the San Onofre Nuclear Generation Station emergency planning and response. Mr. Dan Cleavenger, Emergency Planner for Southern California Edison will deliver this information to our community to promote a better understanding of power plant's function and safety features.

Please join us and provide us with an RSVP so that refreshments may be provided.

Wednesday, September 15th, 2010
