

**UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
REGION IV  
1600 EAST LAMAR BLVD  
ARLINGTON, TEXAS 76011-4511**

November 19, 2012

**SUBJECT:** PUBLIC MEETING NOTICE

**FACILITY:** San Onofre Nuclear Generating Station

**DOCKET:** 05000361/362

**DATE & TIME:** Friday, November 30, 2012  
6:00 p.m. – 9:00 p.m. (PDT)

**LOCATION:** The Hills Hotel  
25205 La Paz Road  
Laguna Hills, CA 92653

**PURPOSE:** The U.S. Nuclear Regulatory Commission (NRC) will meet with Southern California Edison (SCE) to discuss SCE's response to the NRC Confirmatory Action Letter of March 27, 2012, concerning actions required to be taken to address steam generator tube degradation at San Onofre Nuclear Generating Station.

**CATEGORY:** This is a Category 1 meeting between NRC and SCE.

This meeting will include a technical presentation by SCE on the basis, methodology, and conclusions of their efforts to identify the cause(s) of the unexpected steam generator tube wear, the corrective actions taken to address the cause(s), and the basis for continued safe operation of Unit 2. Through dialogue with SCE representatives, NRC staff will ensure that they understand the information presented. Utilizing the information provided by SCE in their October 3, 2012, response to the Confirmatory Action Letter, and the information provided during the meeting, the NRC staff will conduct inspections and evaluations to determine if SCE has satisfied their commitments documented in the March 27, 2012, Confirmatory Action Letter. The SCE presentation and dialogue with the NRC is expected to require the majority of the meeting time. The public is invited to observe this meeting and will have an opportunity to communicate with the NRC after the business portion, but before the meeting is adjourned.

The meeting will be webcast. Given that the seating capacity of the meeting facility is limited to approximately 400 persons, members of the public are encouraged to observe the meeting through the webcast. Webcast information is described below.

Electronic copies of relevant documents, including the March 27, 2012, Confirmatory Action Letter and SCE's October 3, 2012, response to the Confirmatory Action Letter, can be downloaded at the following website: <http://www.nrc.gov/info-finder/reactor/songs/tube-degradation.html>

The NRC provides reasonable accommodation to individuals with disabilities where appropriate. If you need a reasonable accommodation to participate in this meeting, or need this meeting notice or the transcript or other information in another format (e.g., Braille, large print, etc.), please notify the NRC's meeting contact listed below. Determinations on request for reasonable accommodation will be made on a case-by-case basis.

PARTICIPANTS:

NRC:

Art Howell, USNRC Region IV, Director, SONGS Special Project  
Greg Werner, USNRC Region IV, Confirmatory Action Letter  
Inspection Lead  
Doug Broaddus, USNRC, Branch Chief, DORL, NRR  
Greg Warnick, USNRC, Senior Resident Inspector, SONGS

Southern California Edison:

Pete Dietrich, Senior Vice President & Chief Nuclear Officer  
Tom Palmisano, Vice President, Engineering  
Doug Bauder, Vice President and Station Manager

WEBCAST:

This meeting will be made available via public webcast at <http://video.nrc.gov>. The video stream will be active approximately one hour prior to the meeting start. The audio stream will be available once the meeting begins. The webcast will be one-way (i.e., webcast participants will not have the ability to ask questions during the meeting).

Given that the seating capacity of the meeting facility is limited to approximately 400 persons, participation via webcast is encouraged.

TELECONFERENCE:

Interested members of the public wishing to listen to the meeting may call via the following toll-free number: 1-888-913-9973. Participants will need to enter passcode 9941895 to enter the meeting. This will be a "listen only" line.

Questions or comments regarding the meeting can be submitted to [OPA4.Resource@nrc.gov](mailto:OPA4.Resource@nrc.gov).
